

Genie – Z45/25 Bi-energy

Ref: WP24159 / £POA

Overview

The Genie Z-45/25J Bi-Energy articulating boom lift offers a 15.94m working height and is ideal for demanding jobsites. Its on-board diesel-powered generator acts as a 100-amp battery charger, delivering additional power when needed. Perfect for multi-shift operations or long travel distances on site, it provides the flexibility of electric and diesel power for maximum uptime and productivity.
